Yonsei MIRAE Campus: A Hub of Regional Innovation

Yonsei University MIRAE Campus was the first to encourage continuous educational innovation by successfully introducing the Residential College (RC) system, and Wonju Severance Christian Hospital has greatly contributed to improving the health of the local community. The university has strengthened its research competitiveness in specialized fields, developed a customized model for region-based university and industry cooperation tailored to the region, and played a leading role in bothlocal and international volunteer work. It has also established itself as a "university that serves its community and changes the world" through the construction of a nature-friendly eco-campus with a healthy university culture.

The expansion of new technology that is leading the Fourth Industrial Revolution, such as artificial intellgence and big data, demands a change in the paradigm of higher education. Many universities are currently shifting their curricula of standardized knowledge transfer into a creative, problem-solving models.

Our university is also investing continuous effort in educational innovation, actively responding to this historic transformation by adopting new teaching methods and curricula designed to address the challenges ahead.

The eagle of MIRAE Campus has soared high and ceaselessly leading the university's growth for the past 40 years. Now is the time to spread its wings again and ascend toward new horizons of innovation. Reinforced with the strength gained through innovation, the Yonsei eagle will boldly overcome any crisis or obstacle and fly even higher. We sincerely invite your support, active participation, and continued interest.

20th Chancellor of Yonsei University MIRAE Campus

Ha, Yeonseob

The Spirit of TRUTH and FREEDOM

H.N. Allen, 1858-1932

Vision

Yonsei University is dedicated to educating future leaders of our society in the spirit of Christianity, fostering a strong and lasting commitment to the principles of truth and freedom."If you hold to my teaching, you are really my disciples, then you will know the truth, and the truth will set you free." [John 8:31-32]

H.G. Underwood, 1859-1916

Mission Statement

Yonsei University serves as the "alma mater" of all arts and sciences, nurturing leaders who will contribute to the Korean and international society in the ecumenical spirit of Christian teaching epitomized in its motto of "truth and freedom." Yonseians will inherit humanity's cultural legacy and lead academic development through creativity and critical thinking. We will also serve others with an open heart, and contribute to the prosperity of humankind. With these missions, we Yonseians will demonstrate our leadership to bring the Yonsei spirit to the global stage.

YONSEI MIRAE VISION 2035

Innovative University Leading the Future

Vision

Type Of Talent

Innovative and Creative
Talent who drives innovation by pioneering new paths beyond existing frameworks

Value-Creating
Talent who integrates diverse disciplines to create value based on multidimensional thinking

Communicative and Empathetic
Talent who drives innovation by pioneering new paths beyond existing frameworks

Core Value

Convergent Education for Students

Leading Research for the World

Service And Contribution to the Community

Top 5 Goals

EDUCATION	PARTNERSHIP	GLOBAL	RESEARCH	MANAGEMENT
Creating AX-based education innovation and student-centered learning environment	Building a co-growth ecosystem through regional-industrial-academic cooperation	Enhancing global competitiveness through advancing foundation and performace generation	Advancing research support and strengthening convergent research capabilities	Advancing strategic management and establishing a culture of participation and communication

Top 10 Strategic Tasks

1. Advancing AX-based curriculum and academic operations	3. Resolving local problems and strengthening cooperation	5. Advancing the foundation for a global outreach	7. Advancing research infrastructure and estabilishing a foundation for performance generation	9. Advancing performance-based management and securing sustainable financial structure
2. Advancing AX-based teaching innovation and student growth support	4. Advancing demand-based industrial-academic cooperation	6. Supporting global education and industrial-academic cooperation outcomes	8. Enhancing convergent research capabilities and producing practical results	10. Strengthening university identity and fostering participation-based communication

MULTI CAMPUS

We are Connected, We are Yonsei

Yonsei takes pride in its well-established infrastructure and comprehensive support system. Through close cooperation among campuses, we carry forward our leagacy and embody the 140-year-old Yonsei spirit. The MIRAE Campus advances the goals of innovative research and the cultivation of convergent talent, openingnew horizons through educational innocation rooted in Yonsei's history and tradition.

MIRAE Campus

Innovative University Leading the Future

Pioneering the Residential College (RC) System in Korea
Reorganizing the Curriculum to Foster Creativity and Convergence
Advancing Regional Industry–Academic Cooperation and Global Service Initiatives

ONE YONSEI

Sinchon Campus

Place of Innovation Upholding Yonsei's Tradition and Legacy

A historic campus at the heart of Korea's political, economic, and cultural life
An educational and research hub connected with the Medical Center and the International MIRAE Campus
Cultivating global leaders through convergence education and social engagement

International Campus

Center of Global Education, Reaching Out to the World

Realizing internationalization through RC-based convergence education
Offering programs in the School of Global Convergence Engineering, Underwood International College (UIC), and the College of Pharmacy
A hub for fostering creative talent that transcends disciplinary boundaries

Yonsei University Health System

Northeast Asia's Premier Healthcare Hub with Global Competitiveness

140 years of history as a world-class medical institution
Operating a five-hospital medical complex
Integrating care, research, and education through a ubiquitous information system

Yonsei Wonju Health System

Leading Smart Public Medical Base in Korea's Central Region

Over a century of service as the regional center of public healthcare since 1913
Official medical institution of the 2018 PyeongChang Winter Olympics and the 2024 Gangwon Winter Youth Olympics
Operating a regional trauma center and a dedicated emergency medical helicopter (Doctor-Heli)

INTERNATIONAL

How to Apply

Applicants whose parents are both foreign nationals are classified as international students. Please visit our website at admission.yonsei.ac.kr/mirae for application options, a calendar of due dates, and all admissions requirements.

Admissions

Every applicant to Yonsei Univeristy is assured a complete and careful review as an individual. We look for applicants who meet the three following school missions: First, to select talented students who can contribute to the Korean society as global leaders embodying the spirit of truth and liberty. Second, to develop admissions policies and systems that position Yonsei at the forefront of higher education. Third, to contribute to Korean society and strengthen social solidarity.

Programs

Yonsei MIRAE Campus offers undergraduate and graduate programs spanning a wide range of academic fields, as well as the Korean Language Program (KLP), designed for foreign nationals and overseas Koreans who wish to study Korean from the basics to advanced levels.

Scholarships

Our university provides approximately 210 scholarships for undergraduate students, with numerous opportunities available for freshmen. Recipients recognized for academic excellence or special talents may retain their scholarships through graduation by maintaining the required GPA and participating in designated activities.

For detailed information about admissions and financial aid, please visit: https://admission.yonsei.ac.kr/mirae

Residential College Life: Live, Learn, and Lead

The Close-up Student Guidance Program, where professors, students, seniors, and juniors work together as a team to provide holistic education, is a distinctive system that defines our era. Grounded in calling to serve and share, we cultivate talented individuals who become light and salt of the world. The Residential College (RC) system, which integrates learning and daily life, is a core educational model of the MIRAE campus and aims to nurture well-rounded individuals with both intellect and character.

RC Student Guidance System

Integrated Life + Learning Management House Activities, Cultural Programs, Sport Events, and Social Engagement Activities	**General Education and Major Exploration Courses** Leadership Development, Major Exploration, and Experiential Courses
Academic Guidance Major/Career Design Consultation and Major Exploration Fair	**RC Master Professor & Residential Advisor(RA)** Extracurricular Engagement and Mentoring

RC Step-by-Step program

Preliminary University Before Enrollment

· University Adjustment Program
(e.g., Becoming a Yonseian, Smart Campus Life, Academic Competency Building, Meeting with Seniors)

First–Year Students After Enrollment

· Entry into the Self-Designed Convergence Track → Support for Major Exploration
· Implementation of the 4H Program: Head (Intellect), Hand (Experience), Heart (Emotion), Health (Well-being)

Programs	First semester	Second semester
Curricular	Introduction to University Studies Leadership Development	Consulting on Major Path Leadership Practicum
Counseling and Special Lectures	Major and Career Design Major Academic Adviser Counseling	Academic Adviser Counseling
Extracurricular	Activities by 8 houses in Dorm, Master Professors' Mentoring, Cultural Art and Physical Activities, Social Contribution Activities, Lecture on Leadership, RA (senior) Mentoring	

College of
Humanities and Social Sciences Convergence

The College of Humanities and Social Sciences Convergence is dedicated to cultivating professionally competent and creative individuals for a global era. By nurturing humanistic thinking and artistic sensibility, integrating humanistic insights with creative ideas, and strengthening problem-solving skills through the practical application of theory and practice, the college develops leaders prepared to serve the nation, society, and global enterprises.

College of
Science and Technology Convergence

The College of Science and Technology Convergence advances education and research through interdisciplinary collaboration in physics, chemistry, life sciences, packaging, environmental energy, and AI semiconductors. Its participation in the fourth-phase BK21 project strengthens graduate education and research capacity, which is then applied to enrich undergraduate programs.

College of
Software and Digital Healthcare Convergence

The College of Software and Digital Healthcare Convergence offers an innovative program that integrates software, healthcare, medicine, engineering, ICT, AI, and big data. Its mission is to nurture professionals with expertise in digital healthcare. In response to the rising demand for personalized precision medicine, the college enhances convergence education while maintaining each department's disciplinary strengths, thereby contributing to improving quality of life and driving innovation in healthcare.

Wonju College of **Medicine**

Wonju College of Medicine educates and trains students to become competent, credible, and compassionate medical professionals who embody the love of God. To achieve this, the college provides systematic and efficient education through early clinical training. Its resources include Wonju Severance Christian Hospital-an advanced medical institution with distinguished faculty, cutting-edge facilities, 860 beds-and modern student dormitories.

Wonju College of **Nursing**

Wonju College of Nursing is committed to advancing student-centered, future-oriented, and interdisciplinary education in line with Vision 2030, which embraces the core values of "Practicing God's Love," "Leading the Future of Nursing," and "Contributing to National Health." Established in 1994 as the first four-year nursing college in Gangwon Province, it was elevated to Yonsei University Wonju College of Nursing in September 2022.

Graduate School

The MIRAE Campus Graduate School seeks to contribute to the advancement of human culture by developing creative theories and scientific methods, while cultivating future leaders of integrity grounded in the Christian spirit. With outstanding faculty and a research-driven academic environment, the Graduate School plays a leading role in humanities, sciences, engineering, and medicine, achieving excellence both domestically and internationally.

Master's and Ph.D. Integration Programs

Korean Language and Literature, English Language and Literature, History, Philosophy, Business Administration, Economics, Public Administration, International Relations, Environmental Finance, Industrial Design, Visual Communication Design, Environmental and Energy Engineering, Physics, Chemistry, Biological Science and Technology, Packaging, YM-KIST Biohealth Convergence, AI Semiconductor, Computer Science, Information and Statistics, Biomedical Engineering, Health Administration, Biomedical Laboratory Science, Physical Therapy, Occupational Therapy, Radiation Convergence Engineering, Dental Hygiene, Digital Healthcare, Medicine, Global Medical Science, Biostatistics/Medical Information Statistics, Nursing

Master's Program

Robotic Art, Design Management, Applied Artificial Intelligence, Health Policy and Management, Wellness and Healthy Aging, Health and Medical Science, Bio-AI Convergence

Specialized Graduate Schools

Graduate School of Government and Business

The Graduate School of Government and Businessis is emerging as a globally recognized institution across Asia and beyond. It provides practical, field-oriented education alongside rigorous theoretical and professional training. The school cultivates regional and global leaders with strong problem-solving skills, equipped to meet the challenges of the information age and globalization.

Graduate School of Health Sciences

The Graduate School of Health Sciences prepares innovative leaders and professionals in the healthcare, addressing the growing demand for health and medical services in an aging society and in response to rising global interest in quality of life.

EDUCATION

International Curricula

DEA (Division of East Asian Studies)

The East Asia International College, founded in 2008 as a special program to develop professionals for leadership in the 21st-century global era, has grown into a leading center for teaching and research on East Asia. In 2021, it was reorganized as the Division of East Asian Studies (DEA) under the College of Humanities & Social Sciences Convergence.
DEA offers undergraduate courses conducted entirely in English. During the first two years, students take foundational courses in the humanities and social sciences, followed by intensive major courses in their third and fourth years.
In addition, students study East Asian languages-Chinese, Japanese, or Korean-and actively participate in study abroad opportunities through Yonsei University's exchange programs.

GED (Global Elite Division)

The Global Elite Division (GED) is committed to preparing leaders of tomorrow who will shape the future of a global society. Since its establishment in 2016, GED has offered innovative interdisciplinary programs enriched with diverse opportunities for international engagement. The division offers four undergraduate majors: Cultural Industrial Management, Digital Media Design, Global Industrial Business, and Rehabilitation and Health. Our programs blend rigorous academics with practical learning experiences to equip students for success in their careers and beyond.

International MBA

The International MBA program offers a globally oriented curriculum designed to train professional managers with expertise in global business and strong foreign language skills, with a particular focus on international business as well as cultural and arts management. The program cultivates leadership and problem-solving abilities through a systematic blend of theoretical study and hands-on learning. In addition, it supports growth by recruiting outstanding international talent—including students from China-preparing managers who are fully equipped to thrive in the era of globalization.

DEVOTION

Social Engagement and Change

Service, Leadership, and Impact

MIRAE Campus fosters creative global leaders who embody a spirit of service. Yonsei's philosophy of sharing shines as a guiding light, bringing benefits to communities both locally and nationally. Each year, during the summer and winter breaks, Yonsei hosts the nation's largest student volunteer initiative, the "Yonsei Murray Camp," reaching beyond the campus to impact society at large. Through education and research dedicated to addressing global poverty, along with ongoing medical volunteer programs, we are committed to moving beyond one-time efforts to pursue sustainable service and fulfill our responsibility to the world.

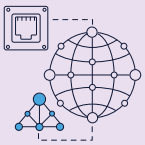

RESEARCH

Driving Knowledge, Creating Impact

With the vision of "strengthening the competitiveness of creative convergence research that leads the times," MIRAE Campus is dedicated to advancing specialized research in three key areas:

Big data and ICT–based applied science and technology

Regional characterization and sustainable development models

Digital healthcare innovation

Leading Gangwon-do with Largest BK21 Research Groups

BK21(Brain Korea 21)

A government-funded program that cultivates creative master's and doctoral researchers and strengthens universities' research capacity.

Department	Name of the Education Research Group (Team)
Environmental Energy Engineering	Environment-Energy Convergence Education Research Group
Public Administration	Community Innovation and New Public Governance Education Research Group in the Age of Global Crisis
Radiological Convergence Engineering	Future Medical Radiation Convergence Education Research Team
Physical Therapy	Creative Innovation Talent Education Research Team for Digital Wellness Care Customized for the Elderly in the Community
Computer Science	Public Big Data-Based Artificial Intelligence SW Convergence Education Research Group for Regional Innovation
Health and Public Administration	Glocal Healthcare Policy and Management Professional Training Team
Korean Language and Literature	Future Talent Education Research Team of Modern Korean Language Literature
Occupational Therapy	An educational research team for the cognitive health and social integration of the elderly in the community based on big data
Life Sciences and Technology	Bio-disaster Resolution Specialist Retraining Research Group
Biomedical Engineering	Customized NBIT Convergence Medical Device Education Research Group
Global Medical Science	Global Human Resources Development Education Research Group Leading Future Medical Sciences

PARTNERSHIP

Strategic Partnerships Driving Innovation and Impact

RISE Project at Yonsei MIRAE Campus (2025–2030)

RISE (Regional Innovation System & Education)

A university support system led by local governments to drive regional innovation, foster talent, and promote balanced national development.

Grant 57.2 billion KRW over 5 years (2025–2030)

5 Core Focus Areas

- Fostering Strategic Industries in Gangwon Province
- Cultivating Regional Leadership Talent
- Creating a Start-up Hub in the Province
- Establishing a Career & Lifelong Education System
- Solving Regional Issues through University-Led Innovation

Vision Transforming into the Yonsei MIRAE RISE Platform, nurtured by Gangwon Province, to become a university responsible for the region's future in partnership with local governments, universities, and communities.

Initiative	Project
Development of strategic industries in Gangwon Province	Development of high-tech strategic industries based on regional, industrial, and academic backgrounds
	Development of specialized industries in cities and counties linked to universities and businesses
Development of local residential talent	Development of specialized universities for employment and settlement in the region
	Advancement of the G-medical system
Creating a Startup Hub in Gangwon	Establishment of technology start-up hub
Establishment of Gangwon-type Vocational and Lifelong Education System	Cultivating leading professionals in regional industries
University-led Regional Issues Resolution	Establishment of G-Lab for Regional Crisis Response
	CITIZEN Project for International Students

GLOBAL

Global Programs & Exchange:
Fostering Student Integration

Exchange Student Program

Exchange students pay tuition to their home university (or the cost is covered by the home university), while application, documentation, and tuition fees are waived at the host university. Admission for one or two semesters is open to students who have completed at least two semesters (or the equivalent) of university-level coursework at an accredited institution outside Korea.
Admission decisions are based on a review of submitted documents, including a recommendation letter, a personal statement, and proof of the required GPA.

Global Village

The Global Village (GV) program is a leadership initiative where Korean and international students live together, learn from cultural differences, and build lasting friendships. To promote deeper understanding of languages and cultures, the GV program provides both formal and informal learning opportunities, including exclusive courses for GV participants, peer mentoring sessions, special events, and a short field trip. Originally offered only in English, the program expanded in 2010 to include Chinese and Japanese. International students in the GV program are eligible for financial aid that covers housing, travel, and living expenses.

Korean Language Courses for International Students

Yonsei University MIRAE Campus offers Korean language courses designed for international students planning to study at a university in Korea. The goal of the program is to equip students with sufficient proficiency to pursue undergraduate or graduate studies. It consists of six levels, each lasting about ten weeks, and requires roughly 18 months to complete all levels. Classes are held four hours a day, five days a week. A high school diploma or its equivalent is the minimum requirement for admission.

Campus Facilities

Dormitories

The MIRAE Housing Complex-comprising Maeji Haksa, Seiyon Haksa, Cheongyeon Haksa, Anderson Haksa, and Judy Haksa-includes ten residence halls. Each dormitory is equipped with computer labs, lounges, study areas, lecture rooms, prayer rooms, music rooms, and laundry facilities. All incoming freshmen are guaranteed on-campus housing. Rooms also feature air-conditioning, refrigerators, and high-speed internet access.

Library

The library holds over 540,000 volumes and provides more than 50 electronic resources-including e-journals, e-books, and academic databases-serving as a core hub for teaching, research, and learning at Yonsei. The six-story building offers general reading rooms, Y-DigiNest (Digital Lounge), creative learning spaces, collection rooms, an information-literacy classroom, and seminar rooms, with 1,306 study seats. Interlibrary loan services extend access to additional resources from other Yonsei libraries-including the Shinchon Central, Underwood Memorial, Shinchon Medical, and Wonju Medical libraries-as well as partner institutions in the KERIS consortium.

Sports Center

Built in 2003, the Yonsei Sports Center offers students a wide range of fitness and recreational facilities, including basketball, volleyball, and squash courts; a gymnasium and fitness club; a rock climbing wall; and an indoor swimming pool with an aqua-health pool and scuba diving pool.

Student Union

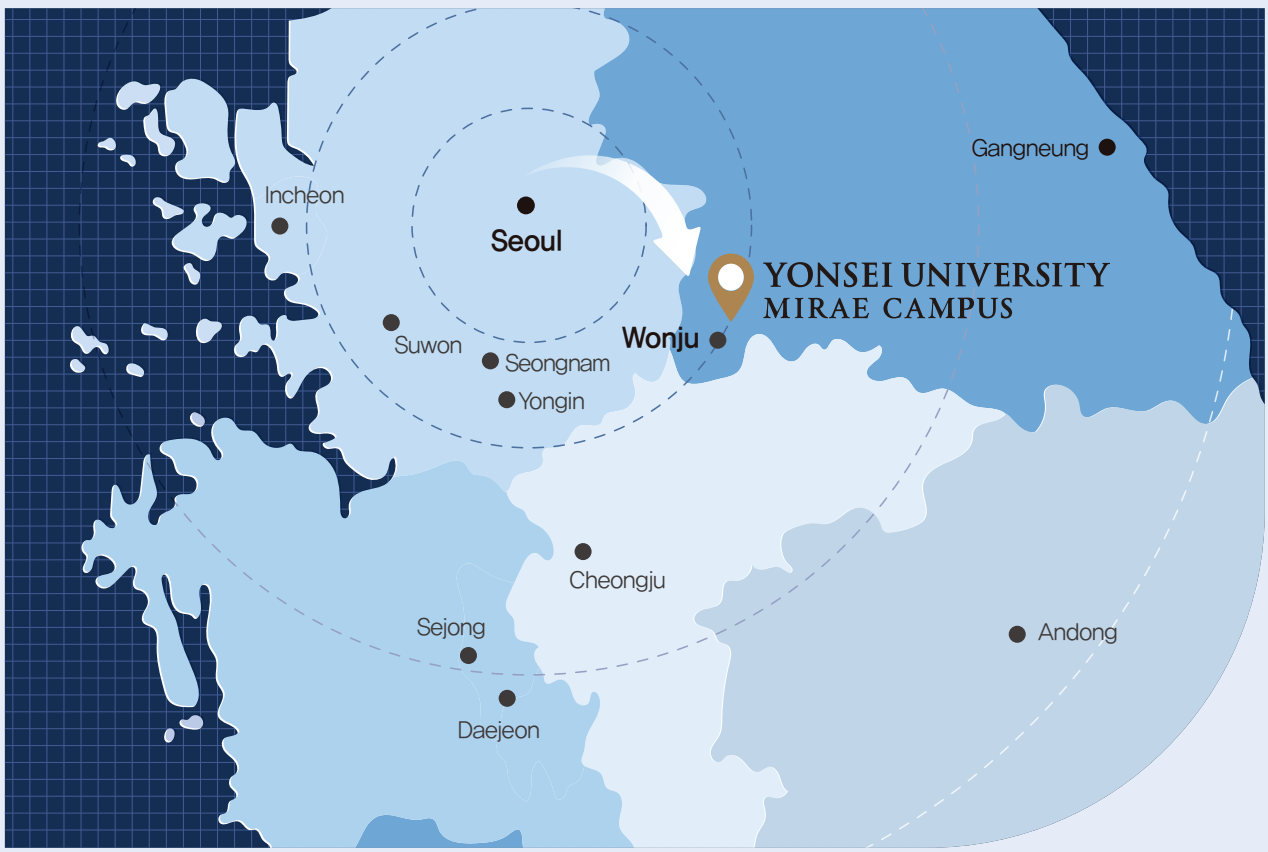

The Student Union serves as the hub of student life, featuring a diner, food court, convenience store, small theater, music listening room, and student lounges. It also houses essential services such as the Department of Student Affairs and Services, the MIRAE Human Resources Development Institute, the Career Development Center, the Center for Students with Disabilities, and the Health Care Center. In addition, the building supports independent student organizations, including the Student Association, the Club Association, and the Student Press Union.

Yonsei Plaza

Yonsei Plaza offers a variety of amenities, including a stationery store, souvenir shop, bank, post office, copy center, laundry, convenience store, optical shop, student cafeteria, and snack area. It also provides PC labs, language labs, and other facilities that support students' academic and daily needs.

Transportation

With convenient access to KTX high-speed rail and the metropolitan subway (scheduled to open in 2027), reaching the MIRAE Campus is faster and more comfortable than ever. Located just about an hour from Seoul, Yonsei MIRAE in Wonju is always within easy reach.

KTX | 47 - 67 minutes

[Jungang Line] Cheongnyangni Station – 47min – Wonju Station
[Gangneung Line] Seoul Station – 67min – Manjong Station
Manjong Station – 41min – Gangneung Station

Metropolitan Subway | Gyeonggang Line, opening early 2028

Pangyo Station – 49min – Yeoju Station (Shuttle bus available)
Pangyo Station – 58min – Seowonju Station

Bus or Car | approx. 60 minutes

[2nd Yeongdong Expressway]
Seoul – Gyeonggi Gwangju – Wonju

Shuttle Bus (Free of Charge)

Yeoju Station ↔ MIRAE Campus
Weekday and Sunday service within Wonju
*Express Terminal, Manjong Station, Wonju Severance Hospital, Wonju Station

YONSEI SPIR

Christian Life

Yonsei nurtures students with strong morals, ethics, and a sense of responsibility to both the nation and the world. Guided by the Christian principles of love, service, and sacrifice, students are encouraged to develop leadership that addresses regional and social challenges. The university is dedicated to fostering leaders who embody understanding, respect, and cooperation. As a graduation requirement, students attend a weekly one-hour chapel session for four semesters.

Yonsei Concert Series

Since 2006, Yonsei University's MIRAE Campus has hosted the Yonsei Concert Series, enriching the cultural life of the campus and the region. Held every spring and fall, the series features renowned international performers, promising young artists, and ensembles of both traditional and contemporary music. Beloved by audiences, the Yonsei Concert Series has grown into a distinguished cultural program, fostering artistic appreciation and emotional enrichment for both the Yonsei family and the local community.

YONSEI–KOREA University Sports Festival

Each year, Yonsei University and Korea University co-host the "Yongojeon," a celebrated series of sports competitions that foster school spirit and strengthen fraternity between the two institutions. The festival features dynamic matches in baseball, basketball, ice hockey, rugby, and soccer.

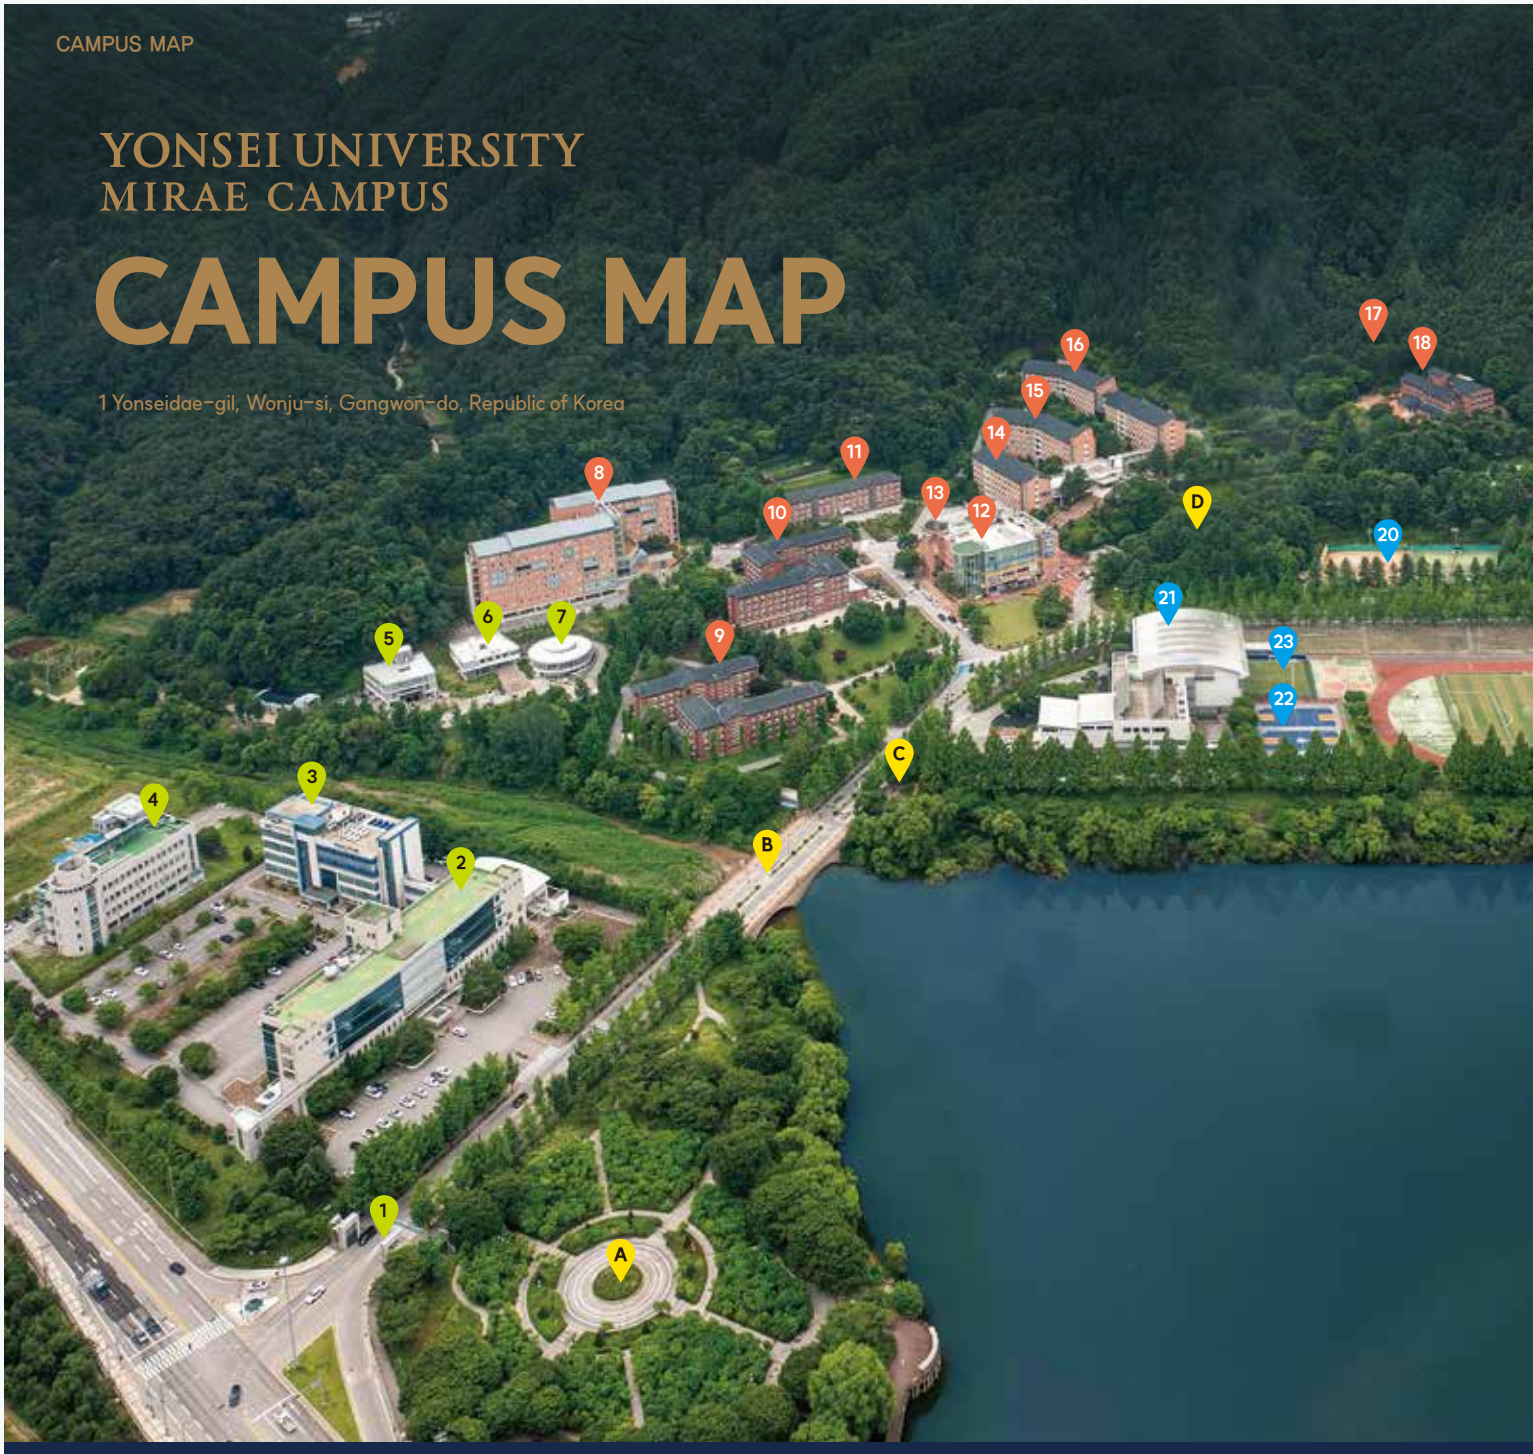

Student Activities

Yonsei offers students abundant opportunities to engage in academic and extracurricular activities beyond the classroom. With more than 44 student clubs and organizations spanning academics, music, religion, arts and crafts, community service, and sports, every student can find a community that reflects their interests. The university actively supports these activities, encouraging students to learn, grow, and connect through diverse experiences.
